CONTRACT VALUE

£200,000

The geometric, faceted STI graphics used in their website and marketing were mirrored in features throughout the office. Most noticeably in the highlighted ceiling bulkheads, manifestation graphics and built-in seating in the waiting area. This subtle interweaving of the brand ensures staff feel connected with the company and its values.

The rest of the office space includes a large, multi-purpose workspace with a tea point, lunch area, and meeting rooms. The space also reflects the brand through the use of wall graphics which display corporate colours and motivational phrases. Subtle yet unique, items were introduced to break up the space; such as a manifestation map on the glass partitioning, acoustic booths, and vertical ceiling acoustic panels. Flooring materials also played a part in visually dividing the spaces, with carpet and luxury vinyl tiles helping to create various zones for different tasks and applications.
