£24,000

Our client wanted to combine their study area and library into one room, connected by a vibrant woodland theme.

Apex took the brief to produce layouts and 3D visuals which enabled the client to envisage the final plan. An open-plan classroom space needed clearly defined zones for reading, studying, and collaborative presentations. To achieve this, we used vinyl and carpet floor coverings. The furniture layout was designed to produce a bright, quirky, and stimulating learning space. The woodland design was enhanced by wall decoration, and printed stickers on the cupboards and windows.
